📁 Projects

TIC-TAC-TOE GAME 06/2023 – 06/2023

- The Tic Tac Toe Game Project is a classic, interactive game implementation designed to provide an engaging and entertaining experience for players of all ages. This project offers a digital adaptation of the well-known Tic Tac Toe game, also known as Noughts and Crosses, with a user-friendly interface and intuitive gameplay mechanics.
- It is a totally responsive web app that makes it fun to play on all screen sizes.
- The project consists of the scoreboard indicating the scores of both X and Y by adding one point as the players win the match.
- It also consists of a board that has 9 squares where the game would be played and a "reset" button to reset the game.
- **Technologies Used: React, CSS, Javascript**

RECIPE APP 05/2023 – 05/2023

- Recipe App is a webpage that provides recipes from various chefs for various cuisines from across the world. It consists of a user-friendly UI that helps its users to navigate through the app without any difficulties and it also enhances the user's experience.
- This web app consists of various components such as the home page, the recipes page, and the settings page.
- The Home page consists of the About section, the top chef's section, the Recipes page consists of the previous searches section, and the recipes section.
- The Settings page allows the user to change the theme of the app, change the font size and color, and change the speed of the animation.
- **Technologies Used: React Js, Saas**
